## Decide on quality.

As Germany's leading manufacturer for high-quality TV and hi-fi furniture we also have extremely high requirements for accessories. We offer a variety of practical aids around the TV set, which skillfully combine consumer electronics and elegant lifestyle. From highly flexible TV wall brackets to elegant speaker stands, shapely CD and DVD shelves and elegant cable channels to gentle cleaning products and an infrared link system to control appliances in closed furniture.

Even if accessories are "only" accessories – you should not settle for less functionality and quality.

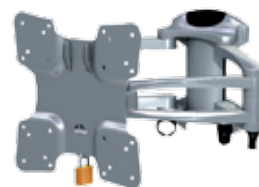

# At Spectral your TV set is in good hands.

This is not only valid for our TV furniture with integrated TV bracket, but also for our wall bracket range. Our fixtures are suitable for nearly all LED, LCD and plasma TVs. See on the following double page which bracket is the right one for you.

An attractive complete solution for your entire audio and video equipment you find here: The T-VISION-SET, consisting of the multi-functional TV bracket T-VISION 400, cable channel T-COVER XL and glass shelves T-SHELF, optional in clear glass or black glass.

## T-VISION 400

TV wall bracket

depth 30 mm

Suitable also for glass, metal and painted surfaces. With anti-static microfiber wipe **for quick cleaning without leaving streaks**.  
Content 300 ml

The eye of the infrared link systems

## Big furniture flap, and a lot behind it.

Control your technical appliances even with closed furniture flaps – with Spectral's IR link system.

**Without** infrared link system appliances can only be controlled with open furniture flaps.

**With** infrared link system control is possible with closed furniture flaps.

### Infrarot-Link-System ZU1281

With the infrared link system up to 4 appliances can be controlled with closed furniture flaps\* (e.g. sound system, multi-color LED lighting, DVD player, satellite receiver, etc.)

### IR extension kit ZU1537

Controlling 4 additional units (8 units in total)

\* For appliances with increased heat generation the flap must stay open during operation. Please observe the user manual of the respective appliance manufacturer.
