## Key features

The prisma HD is our new entry level 1080p projector designed to be small and unobtrusive, yet retain a high level of performance. Unbelievably small, it is practically unnoticeable when installed on the ceiling. The prisma HD comes standard in two different quality finishes; etruscan bronze and pearl white.

The avielo prisma HD supports the most common colour gamuts. Each projector is uniquely characterised and calibrated at the factory, ensuring best possible image quality. With the use of our own revolutionary RealColor colour management suite, the avielo spectra features near unmatched colour accuracy.

The avielo prisma HD is compatible with HDMI 1.3a, and is accompanied by a DVI connector that features the same HDMI compatibility, but has added structural support for heavy gauge cables. Both digital inputs feature our unique digital DPEq Digital Pixel Equalization, thus can be used with up to 30m / 100ft<sup>1</sup> copper digital cables without signal loss at 1080p resolution.

Sealed, optical architecture prevents dust and contamination from entering the optical assembly for optimum purity. The aspherical lens elements and proprietary LD (Low Dispersion) glass make lenses with excellent ability to resolve the image details of high resolution. It is detail and inter-scene contrast that creates stunning images, not only overall black/white contrast.

Unmatched attention to detail sets the prisma HD in a league by itself. A massive molded magnesium chassis acts as a heat sink, and reduces operating noise. The sturdy chassis creates an incredibly stable platform for optics, mechanics and electronics. Lamp change is easy - out of the front panel of the projector without need to dismount it in the installation.

1) 30m / 100ft requires 24 AWG cable.

## High quality projection lenses

### Lens shift enables flexible installations

The prisma HD features 0 - 122% vertical lens shift. That means more flexibility with installations and no keystone correction needed for a perfectly rectangular image.

## Technical specifications

projector		1080p home cinema DLP® projector
display	concept	single chip, 0.95" 1080p DMD™ BrilliantColor™ technology 1920 x 1080p resolution 6-segment, colour wheel, RGBRGB
	compatibility	1080i/p, 720p, 576i/p, 480i/p, PAL SECAM, NTSC digital and analogue RGB
optics and lamp	available lenses	1.62 - 2.02 : 1
	lens shift	approximately 123% vertical lens shift
	contrast	>4000 : 1 (native optical contrast)
	brightness	about 900 ANSI lumens, adjustable
	lamp	220W FusionPlus VIDI UHP™, adjustable power, 170 - 220W
connectivity	video	3000 hours typical in standard power mode 2250 hours in high power mode
		HDMI 1.3a (HDCP) DVI-I (HDCP) (HDMI 1.3 compatible) 1x RCA (YPbPr, YCbCr) (component video) 1x S-Video (s-video) 1x RCA (composite video) HDD-15 (RGBHV, RGBS, RGSB, YUV)
general	control	LAN (TCP/IP), RS232, USB IR remote control with IR repeater input
	dimensions (d x w x h)	234 x 278 x 94 mm (excluding lens)
	weight	2.98 kg
	available colours	pearl white, etruscan bronze
	warranties	3 years limited warranty 90 days/500 hours on lamp. Conditions apply

## Screen sizes, throw distances, brightness

visible area w x h	screen size (diag.)		distance to screen (cm)		foot lamberts
	cm	inches	min	max	
160 x 90		72	256	336	30
182 x 103		82	291	382	24
203 x 114		92	324	426	20
221 x 125		100	354	464	16
234 x 132		106	374	491	13
244 x 137		110	390	512	11

± 5% tolerances

## Standardised bolt-on ceiling mount interface
